JAMES &
NICHOLSON

Be it for construction-site operations in intense sunlight, for the hectic work of delivery persons or for people working in cool warehouses – JAMES & NICHOLSON offers the perfect workwear outfit for your day-to-day work. Our classic designs, the durable fabrics and the wide range of products and colours enable you to individually combine your workwear and to adapt it to your personal needs.

For a professional and expressive appearance, our corporate fashion can be decorated depending on the customer's requests. We will be pleased to advise you on the possibilities.

MADE WITH RESPONSIBILITY

SOCIAL COMPLIANCE

As members of the 'BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage. Another central component is the occupational safety regulations. That is how we guarantee that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

QUALITY STANDARD

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

STANDARD 100 BY OEKO-TEX®

This standard guarantees that textile and non-textile product components pose no threat to health.

ADHERENCE TO THE REACH-REGULATIONS

We assure you that when manufacturing our myrtle beach products and JAMES & NICHOLSON by Daiber textiles we meet the obligations of the REACH-regulations.

OCS STANDARD

When manufacturing garments of JAMES & NICHOLSON by Daiber, the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product.

PROTECTION OF THE ENVIRONMENT

All the products of JAMES & NICHOLSON by Daiber are produced in an environmentally friendly way.

AMFORI BEPI

By becoming a member of amfori BEPI (Business-Environmental Performance Initiative), we can significantly improve the environmental sustainability of our supply chains. We are going to initiate the introduction process with the suppliers who are strategically the most important to us. To start off with, these suppliers will carry out the amfori BEPI self-assessment, which leads to new approaches to implement measures to improve environmental protection. This is because the starting points for improved product responsibility can only be worked out with our long-term suppliers and implemented in a targeted manner once a critical analysis has been performed. Subsequently, our production facilities will be given additional training measures that provide essential knowledge for practical implementation.

OUR REGION IS ON THE MOVE

As a family-run company we see not only our own benefit, we also want to contribute to a positive development in the region. Therefore, when choosing our partners and suppliers, we give preference to regional partnerships whenever possible.

WITH EACH SHEET OF RECYCLED PAPER, WE IMPROVE OUR ECOLOGICAL FOOTPRINT.

- obtained from 100 per cent waste paper
- saves about 70 per cent water
- saves about 60 per cent energy
- no use of harmful chemicals or optical brighteners
- marked with the EU-eco label and the Blue Angel
- certified by the FSC

WORKWEAR MADE OF RECYCLED PET-BOTTLES

It is important to James & Nicholson to sensibly process raw materials that have already been used instead of always entering new ones into the production cycle.

In this way, environmental pollution can be reduced and unnecessary waste can be avoided. Therefore, with the majority of their new workwear collection, the two brands use recycled polyester, which is reclaimed from plastic bottles. The bottles are cleaned, melted and spun into yarn. For example, the workwear trousers JN1812 contain PET bottles – and organic cotton. A classic example of 100% sustainable fabric as well as 100% function.

Jacket, T-shirt / polo shirt or pants: All the items made of or containing recycled polyester are as high-quality, breathable and hard-wearing as the previous ones. Both the yarn production and the adherence to the quality standards are regularly checked by the independent laboratory LABTECH.

Recycled polyester can be found on the following pages: 40, 44, 46, 50, 52, 54, 56, 108, 109, 199, 221 and 222.

COMING TO GRIPS WITH THE SUN THANKS TO WORKWEAR WITH CERTI- FIED UV-PROTECTION

Many professions are practised outdoors all day or part of the day. Most of the year people working outdoors are exposed directly or indirectly to the sun. Therefore, their risk of contracting skin cancer is much higher than that of people working indoors.

UV-CLOTHING PROVIDES BETTER PROTECTION THAN SUNSCREEN

The best protection against harmful UV-radiation is provided by certified UV-protective clothing. It shields off radiation, does not have to be applied once again like sunscreen and therefore lasts all day. For the parts of the body uncovered by clothes sunscreen with a high sun protection factor and a headgear should be used.

THE MORE UPF, THE BETTER

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. Therefore, the UPF-indication on textiles corresponds to the sun protection factor of sun-screens. This is based on the self-protection time of the skin, which varies considerably depending on the individual skin type.

A product marked with **UPF 50+** according to this standard blocks more than 98% of the harmful UV-rays.

TESTED TEXTILE UV-PROTECTION

Our products are manufactured and checked according to the strictest standard (Australia) for textiles with UV-protection.

The LABTECH Prüfungsgesellschaft mbH is officially accredited according to DIN EN ISO/IEC 17025 2005 and based on this standard, they test as an independent laboratory the UV-protective factor of our textiles.

**98% SHIELDING
OF UV-RADIATION**

THE DANGERS OF UV-RADIATION

You will find UPF 50+ on pages 77, 81, 111, 118, 157, 159, 163, 165 and 167. All the products with UV-protection are also listed separately in the special flyer 'UPF 50+'.

WORKWEAR COLLECTIONS

ESSENTIAL STYLE

RECYCLED
POLYESTER

YKK

SIZE
XS-6XL

Recommended for:

- all trades
- extreme weather conditions
- modern companies
- work and after-work
- combination with tops in corporate color

- stuccoers, plasterers, painters
- road construction
- underground construction
- steel construction
- floor layers
- tilers
- plumbers

Special Features:

- durable and hard-wearing softshell material
- Breathable and permeable to water vapour (2,000 g/m²/24 h)
- CORDURA® insets

FUNCTIONS & FEATURES

Whoever really wants quality will also invest in details. Therefore, the workwear of James & Nicholson is equipped with high-quality functional materials and finishing. Let us give you an overview of the brands and functions.

CORDURA

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

SOFTSHELL

SOFTSHELL

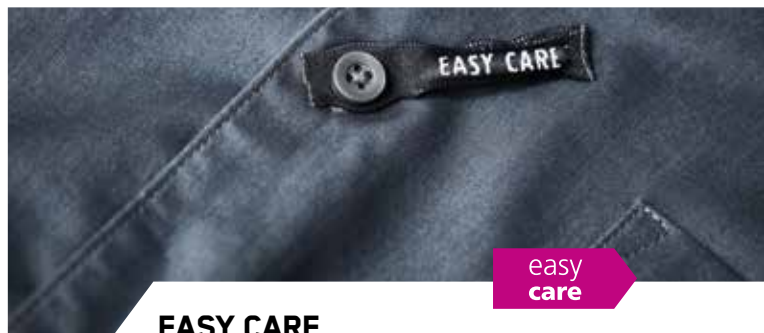

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

3M THINSULATE™

3M™ SCOTCHLITE™ REFLECTIVE FABRIC

The reflective fabric enhances the visibility at night or in poor lighting conditions. (without protective function/no PPE).

easy care

EASY CARE

This special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be overdried in the tumbler and you should avoid using an overheated iron.

SORONA AURA

SORONA® AURA

sonora®AURA fibers consist of 37% vegetable components, obtained from renewable raw materials. Garments with sonora®Aura offer an eco-friendly alternative with outstanding breathability, lightweight comfort and efficient heat retention. sonora®AURA offers the perfect mix of sustainability and performance.

BIONIC-FINISH®ECO

BIONIC-FINISH®ECO

BIONIC-FINISH® was developed, following the example set by nature, 'learning from nature'. The textile is protected against water and dirt by a very thin crystalline structure. BIONICFINISH®ECO protects man and nature.

UPF 50+

TEXTILE UV-PROTECTION

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. This is based on the self-protection time of the skin.

ONE TEAM. ONE OUTFIT.

There is no second chance for a first impression. Therefore, professional staff outfits are so important. Corporate fashion also boosts team spirit. Respectable, modern, reliable – corporate fashion is the textile figurehead of a company. This helps the employee to identify with the company and his colleagues.

**MIX & MATCH –
EXAMPLE:
COLOR STYLE
IN CARBON-RED**

THE PRINCIPLE OF WORKWEAR

The highest level of functionality and modern looks are not mutually exclusive. Today they are a prerequisite for a workwear collection that takes its job seriously. A good outfit is worn with as much pleasure at work as it is worn after work. Moreover, our ESSENTIAL STYLE collection impresses with an incredible flexibility: All the items can be easily combined with each other and with items of existing collections. Casual, practical, functional!

JN877 STAY CLEAN

They look good, are comfortable and just shake off the dirt. The highlight of these trendy cargo pants is the fluorine-free impregnation with BIONIC-FINISH®ECO. This environmentally friendly principle follows the example set by nature – water and dirt particles roll off like waterdrops on duck feathers.

DEMAND AS A MISSION

Today's makers value cool style, comfortable fit and everyday practicality. That's why our SOLID STYLE collection looks simple, but does a damn good job of combining functional materials and fashionable reflective elements with thoughtful details like triple stitching, CORDURA® reinforcements and concealed zippers. Unicolor, cool, modern!

SOFTSHELL

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

Shell

Membrane

Lining

Heatretention

JN882 IS ON THE BALL

Outside it is cold and wet, inside it is cool and dry. When standing, you will soon be cold, when moving, you will be too warm- this breathable softshell jacket is perfect for the in-between season. It avoids trapped heat, is wind- and weather-proof and on the inside it impresses with its durable and elastic interlock.

A man with a beard and long hair, wearing a red work vest over a dark blue t-shirt and red shorts, is standing on a red forklift in a warehouse. He is holding onto the white metal frame of the forklift. The background shows industrial shelving and equipment. Three callout lines with yellow dots point to specific features of the vest: the shoulder area, a chest pocket, and the side seam.

**Breathable and
permeable to

JN886 ADVANTAGES AT SUB ZERO TEMPERATURES

Working well wrapped up even in cold weather is a thing of the past. The warm inner lining in the slim-fit softshell jacket braves adverse weather conditions. The integrated membrane holds off wind and water. Another benefit: a detachable hood. Just wear it.

A woman with dark hair in a ponytail, wearing a red zip-up hoodie with white piping on the sleeves, is working on a wooden structure. She is looking down at a blue metal component. In the background, there are wooden planks with text: "MADE IN AUSTRIA 10091309C", "EN13377 P20M", and "4.50m". A blue metal bracket is attached to the wood. Another person's arm in a red hoodie is visible on the left, holding a metal rod.

JN895 OPEN TO EVERYTHING

At work it is always good to have an allrounder on board: This easily combinable zipped sweatshirt can be worn on its own and in a layered look, in harmonious or in contrasting color. With contrasting pipings and a cuddly, roughened inside it is indispensable for the in-between season.

COLOR
STYLE

WORKING WITH PROFESSIONALS

The workwear of James Nicholson by Daiber is distinguished by a lot of experience: Not only our own experience but also the experience of craftsmen and handymen. Their inspiration is deeply rooted in this product line. Therefore, COLOR STYLE has been convincing for years with a durable and yet elastic quality, tearproof seams and numerous pockets. The zips and buttons are concealed. What is striking however, is the sporty bicolor design.

STRONG
STYLE

NO HALF-WAY MEASURES

The only way of getting better is putting the good to the test again and again. Therefore, we have optimized our professional line, developed it further and given it a new name: STRONG STYLE. The high-performance collection is hard-wearing and reliable. Important spots like knees and shoulders are reinforced with CORDURA®, the seams are tear-proof. Details like ventilation openings are taken for granted. Workwear as workwear should be.

Spacious ventilation openings at the back

Washable at 60°C, suited for tumble drying

A man with dark hair and a beard, wearing a red and black high-visibility work suit, stands in a construction or demolition site. He is holding a large, heavy-duty industrial drill with a long, twisted drill bit. The background shows a brick wall and a window, with a bright light source creating a strong shadow on the ground. The overall tone is industrial and professional.

Can do a lot, achieves
a lot and can take a lot.

JN855 stone/black

A woman with blonde hair and a tattoo on her right arm is wearing a dark blue polo shirt. She is standing in front of a weathered wall. The shirt has a contrasting inset on the chest and sleeves.

JN1825 STABLE

A confident appearance with contrasting insets: This heavy-weight polo shirt easily copes with rugged outdoor use, washing at 60° C and tumble-drying.

WASHING (TUB)

The numbers in the tub indicate the maximum washing temperatures which must not be exceeded. The bar below the tub requires a more (mechanical) gentle treatment (e.g. programme for delicate fabrics). It designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when still wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

Normal washing

Delicate washing

Normal washing

Delicate washing

Normal washing

Delicate washing

Specially delicate washing

Delicate washing

Delicate washing

DRY CLEANING (CLEANING DRUM)

The letters are intended for the textile cleaner. They indicate the possible solvents. The bar below the circle requires cleaning under limited mechanical strain, with a limited amount of moisture and at a medium temperature. Textiles with prints or embroideries should not be dry cleaned.

Normal clothes

Delicate clothes

Delicate clothes

Delicate clothes

Delicate clothes

Delicate wet cleaning

Special wet cleaning

No dry cleaning possible

IRONING (IRON)

The dots indicate the temperature scale of the irons. Textiles with prints or embroideries should only be ironed on the reverse.

Iron at high temperature (max. 200 degrees)

Iron at medium temperature (max. 150 degrees)

Iron at low temperature (max. 110 degrees)

Do not iron

TUMBLE DRYING (TUMBLE-DRYER)

The dots indicate the drying-grades of the tumble-drier. Textiles with transfer prints must not be tumble-dried.

Tumble dry at normal temperature

Tumble dry at low temperature

Do not tumble dry

BLEACHING (TRIANGLE)

This symbol shows the textile cleaner whether the garment may be bleached or not.

Chlorine bleaching possible

Only oxygen bleaching
No chlorine bleaching

Do not bleach

A PERFECT APPEARANCE

JAMES & NICHOLSON offers the complete corporate fashion package

From head to toe, from functional jacket to T-shirts in matching colours. Thanks to a large colour selection and a huge variety of products, any company will easily find a suitable corporate outfit, which can be decorated with their own logo to create a perfect appearance.

Printing or embroidery – your own message is the centre of attention, whereas the branding of JAMES & NICHOLSON remains discreetly in the background. Another example of the decoration competence: After having been embroidered on, the breast pockets of the SOLID collection can still be used without restriction as pockets. See page 14 for more information on corporate fashion.
